Acoustic Grand Piano

The musical score for 'Hive' by Diana Magallón is written for Acoustic Grand Piano. It consists of three systems of music. The first system features a complex, dense texture with multiple layers of notes and accidentals (sharps, flats, and naturals) across the treble and bass staves. The second system, marked with a '2', shows a more rhythmic and melodic line in the treble staff, with the bass staff remaining mostly empty. The third system, marked with a '3', continues the melodic line in the treble staff, with the bass staff still empty. The overall style is contemporary and experimental, with a focus on intricate harmonic structures.

HAT HEAD SHARING

Read the score.

Gather every hat you own.

Sit in front of a mirror.

Read a statement about mirror neurons.

(Statement about mirror neurons. When an observer perceives a particular state in another individual, neural representations of that state are activated in the observer, resulting in the experience of a similar state.)

Put one of the hats on your head.

Remember something about the hat.

Take off the hat.

Repeat until you have tried on every hat you own.

Then put a banana on your head.

BRANDSTIFTER & HIS INCREDIBLE LABERTIERCHENS

WHO ARE YOU?

In 2018 I used this video for a performance event at the opening of the exhibiton FLUX4ART at Kunstverein Germersheim in Germany. A lot of new immigrants and refugees live in Germersheim on the countryside of the Palz in the south west of Germany and people from the right wing, who are against them, too. I asked people to talk only about themselves and not about others, as they often isolate themselves by using prejudice about other people they don't know personally. This says in fact a lot about themselves, stating their own narrow mindedness. I recorded the interviews and turned them the same day into a video installation for the show.

FLUXUS SCISSORS

“Fluxus scissors” video art is linked to the sense of “unconventional” exploration, where paper, cardboard from other uses: newspapers, magazines, photographs, etc., “are born” again to tell a different anecdote thanks to recycling “. This is recycling in the name of art.

The scissors become a perfect “orchestra conductor” where the simple “paper cut” and “glued” on the “rectangular” cardboard, will give life to a collage that will become an intense “Flux” artistic creation.

In our case, the physicist of this collage is now in Greece. It was sent out as a Venezuelan “mailart”.

JOKIE X WILSON

DON'T LET THIS HAPPEN TO YOU!!!

I'd like to tell you about something that you probably know nothing about.
It has been carefully hidden from you.
No one has ever told you about it, but it is having ill effects on your life right now!
It's attacking you and you don't even know it!
If you don't stop it, it will continue to harm you, the community, and naïve children!
You must stop it now!!!

Don't let this happen to you!!! It's a disgrace!!!
You have the right to be without it!!!

Don't let this happen to anyone else!!!
They think that they like it, but it's hurting them!!!
Pass laws to protect them from it!!! If you don't, it will be
ALL YOUR FAULT!!!

The worst part is that, if you don't stop it, you and
many other people will go to the place where everything
that you dislike or find displeasurable will occur and you won't like it!!!
THEY won't like it!!! And no one will like YOU!!!
Stop it before it's too late!!! Only YOU can do it!!!

"EXHIBITION O-TON - INSIDE OUT"

In the video "Exhibition o-ton - inside out" we see creative works by Susanne Schumacher based on the ideas of Fluxus according to George Macunias.

It's like a big bang of colors and materials in her photographs that evoke that certain unknown: water made visible. There is also a book in the exhibition with Fluxus ideas by Susanne Schumacher. In addition to working with sound, an experimental sound can be heard on the "Soundcloud". The Cocoon sculpture is a reminder of life during the pandemic. Locked in and awakened to new life, like a butterfly in a cocoon. For the first time, the cooperation "Save the World" for the Water Event with Yoko Ono and Susanne Schumacher will be shown in Hanover. In addition to the large-format photographs "Mystic Image Transfer", the artist uses a glass filled with feathers to give every visitor a take-away, a sign of life. The lightness of being. Apple made from poetry and gold complete the image of Fluxus.

Creativity of the artist in picture and sound captured by Lars Schumacher. Interview - partners Viktoria Krüger, Galerie GEDOK Lower Saxony-Hanover and artist Susanne Schumacher.

"EXHIBITION O-TON - INSIDE OUT" (GER)

In dem Video "Ausstellung o-ton - inside out" sehen wir schöpferische Werke von Susanne Schumacher auf den Ideen des Fluxus nach George Macunias.

Es ist wie ein Urknall an Farben und Materialien in ihren Fotografien, die das gewisse Unbekannte hervorrufen: Wasser sichtbar gemacht. Weiter ist ein Buch in der Ausstellung mit Fluxus Ideen von Susanne Schumacher ausgelegt. Zu den Arbeiten mit Ton ist ein experimenteller Ton auf der "Soundcloud" zu hören. Die Skulptur Cocoon erinnert an das Leben in der Pandemiezeit. Eingeschlossen und zu neuem Leben erwacht, wie ein Schmetterling im Cocoon. Erstmals wird in Hannover die Zusammenarbeit "Save the World" zum Water Event mit Yoko Ono und Susanne Schumacher gezeigt. Neben den großformatigen Fotografien "Mystic Image Transfer" setzt die Künstlerin mit einem Glas befüllt mit Federn für jeden Besucher zum Mitnehmen, ein Zeichen für das Leben. Die Leichtigkeit des Seins. Apfel aus Poesietexten und Gold ergänzen das Bild des Fluxus.

"EXHIBITION O-TON - INSIDE OUT" (ESP)

En el video "Exposición o-ton - de adentro hacia afuera" vemos trabajos creativos de Susanne Schumacher basados en las ideas de Fluxus según George Macunias.

Es como una gran explosión de colores y materiales en sus fotografías que evocan esa cierta incógnita: el agua que se hace visible. También hay un libro en la exposición con ideas Fluxus de Susanne Schumacher. Además de trabajar con sonido, se puede escuchar un sonido experimental en "Soundcloud". La escultura Cocoon es un recordatorio de la vida durante la pandemia. Encerrado y despertado a una nueva vida, como una mariposa en un capullo. Por primera vez, la cooperación "Save the World" para el Water Event con Yoko Ono y Susanne Schumacher se mostrará en Hannover. Además de las fotografías de gran formato "Mystic Image Transfer", el artista utiliza un vaso lleno de plumas para llevarse a cada visitante, un signo de vida. La ligereza del ser. Manzana hecha de poesía y oro completan la imagen de Fluxus.

Insignificance: Something to Think About

$$40 \div 1 = 40$$

$$40 \div 0 = 0$$

$$1 > 0$$

Anything $\div 1$ = anything

Anything $\div 0$ = nothing

Anything $>$ nothing

Yet

Anything $+ 0$ = anything

Therefore

Anything $>$ nothing

Nothing is NOT insignificant

FRAGILE, Handle with Care

In response to 2020:

Life is fragile. Life is fleeting.
What is here today may be gone tomorrow.
Despite the best, or worst, intentions,
we never know just what will happen.

So many things have come and gone.
So many things are yet to become.
Another day dawns, grows wide, and fades
into a duality of being both here and gone.

We mourn both our losses and our triumphs.
We rebuild past into present into future.
We reassess our hopes and dreams
to find our own beauty in and out of the decay.
